TAVERNA DELLO SCOIATTOLO

Lunches - Dinners - Meetings

WHERE:

*località Lama, Il Ciocco Tenuta e Parco - 6 km (3.7 miles) from
the Il Ciocco infoPoint*

*A cozy log cabin surrounded by nature, a spacious area warmed by the fire of a wood burning oven, a table laden with traditional dishes: the **Taverna dello Sciattolo** is a wonderful rustic retreat far away from the usual tourist attractions.*

As far as we can remember it has always been a part of this mountain's history. Since the mid-70s, the tavern takes on the distinctive features of a *restaurant on demand* that we know today.

It is located approximately 900 meters above sea level and is easily reachable by car in the direction of località Lama.

After a brief visit to the nearby belvedere (optional stop-over) on board of an off-road vehicle, a banquet prepared with all the love of a homemade meal will be waiting for you in the unique setting of the Taverna.

The warmth of the fireplace during the crisp winter days and the cool shade of the surrounding chestnut trees during the sunny summer afternoons, make the Taverna the ideal destination for country lunches and bucolic dinners all year round.

To animate the evening you will be entertained by *live music*: catchy swing tunes will render the evening's atmosphere

re all the more familiar and comfortable. You will spend pleasurable hours in each other's company sharing a wonderful meal and admiring the colors of the *Living Mountain* before returning to the valley.

From **company events** to **buffets with friends**: when requested, it is possible to create intimate spaces using the three-fold room dividers provided. This allows the needs of different sized groups to be met. A distinctive feature of the Taverna is the **meeting room with bar area** that can be rented separately.
