

DRIVING EXPERIENCE

Our classic car rental service provides a range of beautiful and powerful cars suitable for every taste and elegance, for a unique driving experience.

We have cars of rare beauty that differ from modern, everyday cars in exclusivity and originality of design.

Take the opportunity to escape modern life for a moment by going back in time, driving a classic car while gripping a vintage steering wheel that transmits every nuance of the road to your wrists.

A wide selection of classic cars is available: Ferrari, Fiat, Lancia and Alfa Romeo, as well as others that have marked automotive history. Every detail of the car is meticulously catered to, and they undergo regular maintenance to ensure a worry-free rental.

Our staff will be at your disposal throughout the rental period to provide the necessary assistance or recommend routes and places to discover without, of course, invading your privacy.

We believe every customer deserves the utmost attention and care: that is why every rental is built around your wishes.

Our team can advise you in every aspect of the rental to make your experience unique: from choosing the car to planning the route, from places to visit to little tricks that will make the most of your tour.

If you wish, one of our staff members can accompany you all along the way in another car. If you need advice, or if you are not sure which restaurant to choose for your stop, or for an extra feeling of safety, your personal assistant will always know how to help you.

There are countless enchanting places to visit while driving a classic car.

Enjoy a trip along the breathtaking hairpin bends of the Garfagnana area, Lake Gramolazzo, the Carrara marble quarries. Discover the enchanting beauty of the Versilia seaside resort hub, from Viareggio to Forte dei Marmi, for a return to the dolce vita. Or visit Lucca and its beautiful walls.

Ours is not just a car rental service: we help you create your ideal tour, suggesting places to visit and experiences to live.
